

Database and Security Compliance Made Simple

Qualifying Questions

- Are you passing your audits (NIST, SOX, PCI, SAS70)?
- Have your databases been breached?
- Do you have an initiative for internal threats?
- Do you rely on native logs for DB compliance? Does this require lots of people, time and effort? Does it add performance overhead and/or affect stability?

Keywords to Identify the need for IBM Guardium

- Monitor privileged DB users
- Prevent unauthorized DB changes
- Prevent SQL injection attacks
- Identify missing patches & DB vulnerabilities
- Discover sensitive data in your DB's
- Automate compliance reporting
- Simplify FISMA, NIST, SOX, PCI, OMB, SAS70
- Competition: Imperva, AppSec, Tizor, Idera
