Key Customers

United States Patent and Trademark Office

Communications

Siemens developed the OpenScope Unified Communication (UC) Solution to provide enterprises with Unified Communications capabilities that combine enterprise-grade voice with carrier-grade scalability and reliability, IP Least Cost Routing, video conferencing and role- and presence-based UC applications.

OpenScope UC Server operates in any existing IT or telephony environment, whether from Siemens or any other vendor, as well as existing desktop collaboration systems from IBM or Microsoft. Let us show you how it can increase workplace productivity and efficiency.

Siemen's also offers a variety of telecom/communication solutions.

Staff Augmentation

ISOCORP delivers exceptional technical professionals to help you meet your organization's goals without the expense, delay, or inconvenience of lengthy recruiting, assessment and training processes.

Professional Services

ISOCORP's Systems Engineering Group provides national implementation and support services for all of ISOCORP's strategic and OEM partnerships.

About ISOCORP, Inc.
